

REMOTE ACCESS TO NETWORK APPLICATIONS

CONNECTION METHODS

Mass General Brigham offers several ways to access your applications when working remotely.

INTERNET	<i>Need to do a quick check of email, enter your time in Kronos, or log into Peoplesoft?</i> The easiest way to access a single application is over the internet.
WORKSPACE	Login once to Workspace (workspace.partners.org) for streamlined access to many applications including Epic Hyperspace, PeopleSoft, and HealthStream. <i>Complete list of applications:</i> KB0026897 <i>INFO: Applications Available through Workspace</i>
VPN	<i>Working remotely for the day and need full access to your applications and Home drive?</i> VPN allows you to connect to the Mass General Brigham network from home or other remote location and access most your network resources.
MOBILEIRON	<i>Want to access your email or applications from a smart phone or tablet?</i> MobileIron provides access to many network resources on your mobile device.

SECURE LOG IN

All connection methods, except MobileIron, require you to use Secure Log In. You'll need to enter your user name and password and confirm your identity by text message or phone call.

APPLICATIONS

The chart below displays commonly used applications and available connection methods.

✓ = available

~ = available, not optimized

✗ = not available

Application	Internet	Workspace*	VPN	MobileIron
